Miss HELEN delivered that lecture to a do zen or two of us here last winter. It was a rather good lecture, and we have an indistinct recollection of having been so unsuspeeting as to say as much at the time. From here she went to Shelbyville, where she and the Reverend gentleman who accompanied her as her "guardian," some how or other got their bed-rooms at the hotel mixed up one night, and they left town hastily by particular request- a request preferred by divers and sundry citizens of the place. At Chattanooga she again read her lecture. But the editor of the Gazette having found it word for word in some apostate Latter-day-Saint's book on Mormonism, exposed the plaigerism, and the fair but frail lecturess and her less fair but not less frail companion went over into Georgia, where they encountered many new adventures. 23 It is asserted in the Courrier des Etats Unis, in an article on the ball to the Prince of Wales, that of that famous festival "the pantaloons of the venerable Peter Cooper were the most enrious ornament. These ambitious pantaloons," ands the careful chronicler, "came up on the breast to the neighborhood of the cravat, and at each bow made by the obsequious millionaire the top button bloomed out in the opening of the vest, like a third eye opened wide in order the better to admire his Highness."

A DOUBLE CONTRAST .- The revenue of Great Britain is about £70,000,000; that o Turkey about £10,630,000. The calaries of the English Cabinet, consisting of fifteen members, at an average of £5,000 each, amount to £75,000 a year, while those of the Turkish Ministry, (Mushire included,) amount to about £190,000.

CRINOLINE IN PERIL.-Crinoline has, at last, met with an enemy that threatens its overthrow. A new skirt has been invented which sustains the dress without any assistance of whalebone, simply by a harmonious and skillful disposition of the muslin folds of which it is composed. The Multiple Skirt is formed of a series of overlapping flounces, arrayed in a fan shape, readily expanded by means of metallic eyelets. One or two flounces are at most required for a morning dress, and nothing can be more simple. The skirt is put on or off in a minute; and, when on a journey, divided in pieces. It may be smoothly folded and scarcely occupy any

NASHVILLE, Sept. 15, 1860. The Committee appointed by the State Bu eau of the Seventh Annual State Fair of Tennessee to examine, and make award for the best Family Sewing Machine, find on exhibition the following machines in competition : the I. M. Singer, Vacant & Wilson, A B. Howe, and the krover & Baker. The first three named, although differing in construction and capacity, still so far as the stitch is concerned, all arrive at the same point, making what is called and known as the shuttle stitch, each using a shuttle or shuttle and bobbin, upon which all the lower thread, or thread used underneath is required to be respooled. The Shuttle Machine may be used upon some classes of family sewing with a degree of satisfaction, but we conceive from their construction, operation and stitch, their principal adaptation is to the purposes of manufacture. The points we conceive most necessary and important to meet the wide range of requirements in a machine for family sewing, we find more fully combined in the Grover & Baker-extent of capacity simplicity of construction, ease of manage ment, advantage of using thread from two spools without rewinding; strength of work, elasticity, durability and regularity of stitch. and quietness of movement. We therefore

make award to the Grover Baker. JOHN HERIGES, Chairman. JO. W. HORTON, J. W. WILSON,

TO THE EDITORS OF THE PATRIOT:- Deeming it my duty to those afflicted, and to the one who cured me of two malignant Fever Sores upon my legs, which made my life bar-densome for five years, having applied to several physicians who could give me no re-lief, and trying all kinds of medicine I could get, which was recommended for old sores. All seemed to fail. I gave up ever being cured, and wished for death to relieve me of my misery. For many months my limbs John Davis, pained me to that extent I could get no Mrs H Davis sleep, until my father, who, being cured of a severe Rheumatism by the Indian Doctor, at No. 100, High street, purchased for me a bottle of his Blood Purifier and a box of his All Healing Ointment, which relieved me immediately. My legs are now sound and well. My general health and strength is better than it ever was in my life. And if I owe any man on earth a debt of gratitude, that man is Doctor Anderson. I wish every man, woman and child in the world, who are afflicted as I have been afflicted, who have suffered as I have suffered, may read this letter and thus find where they can be cured.
I am of the opinion his remedies will cure
any sore in existence, and I would recommend all thus afflicted to apply to the Indian Doctor, No. 100 High street, where they can be relieved of misery, and also be permanent by cured. MERRION SANDERS, Resides at Sandersville, Davidson county

The IRON being absorbed by the blood, and thus circulating through the whole system, ne part of the body can escape their truly wonder. ful influence. The experience of thousands daily proves that no preparation of Iron can for a moment be compared with it. Impurities of the blood, depression of vital energy, pale and otherwise sickly complexions indicate its necessity in almost every conceivable case. In all cases of female debility (fluor albus, chlorosis, etc.), its effects are delightfully renovating. No remedy DRLL has ever been discovered, in the whole history arising of medicine, which exerts such prompt, happy, and fully restorative effects. Good appetite, complete digestion, rapid acquisition of strength, with an unusual disposition for active and cheerful exercise, immediately follow its use. As a grand stomachic and general restorative it has no superior and no substitute.
